

## 2013 IEPEC Poster Presenters

---

1. **Brian Booher, D&R International, Ltd.:** Very Efficacious: Transforming the Market with the DesignLights Consortium Qualified Products List
2. **Whitney Brougher, National Grid:** Field Evaluation of Heat Pump Water Heaters in the Northeast
3. **Seth Craigo-Snell, Applied Proactive Technologies:** Is it Still Cost Effective to Promote Light Bulbs? Should We?
4. **Jennifer Detlor, University of Wisconsin-Madison:** Determining Emissions from Electric Vehicle Adoption in Colorado
5. **Nikolaas Dietsch, US EPA,** Forecasting the Energy Impacts of State Energy-Efficiency Policies
6. **Geoffrey Embree, Northeast Utilities:** At Variance: The Cluster Sampling Paradigm
7. **Goshi Fujimoto, Tokyo Gas Co., Ltd.:** Changes of Energy Saving Behavior Since the Earthquake in Japan
8. **William Gifford, DNV KEMA Energy & Sustainability:** Responding to the Demand for AMI and DR Information: New Trends from the 2012 FERC Assessment of Demand Response and AMI
9. **Marjorie Isaacson, CNT Energy:** Retrofitting Multifamily Buildings: A Sustainable Model for Energy Savings
10. **James Leahy, DNV KEMA Energy & Sustainability:** Assessing New Construction Programs in Light of Advancing Standards: Where are the Opportunities for Deeper Savings?
11. **Lori Lewis, Analytical Evaluation Consultants:** The Extra Mile: Searching for Indirect Market Effects?
12. **Jeannette LeZaks, Energy Center of Wisconsin:** Characterizing the Multifamily Market -- Lessons Learned and Best Practices
13. **Lance Loncke, District Department of the Environment:** Will a Green Jobs Objective Help or Hinder the Achievement of Energy Savings Goals?
14. **Brian McCowan, ERS:** Commercial New Construction Code Compliance: Strategies for Accurate Assessment and Improved Compliance Rates
15. **Brian McCowan, ERS:** Impact of Advanced Power Strips (APS) in Office Buildings
16. **Monica Nevius, NMR Group, Inc.:** Making the Switch from Watts to Lumens: A Comparison of Consumer Knowledge Across States & Over Time
17. **Jeremy Offenstein, ADM Associates, Inc.:** Assessing Interactions Between Statewide and Utility Energy Efficiency Program Offerings
18. **John Proctor, Proctor Engineering Group, Ltd.:** Realizing Evaluations Produce Estimates NOT "Certainty"
19. **John Proctor, Proctor Engineering Group, Ltd.:** TMY3 is Not Normal, Nor is it Typical – The New Normal is a Trend!
20. **Bob Ramirez, Itron, Inc.:** Farewell T12s, Parting is Such Sweet Sorrow
21. **Pam Rathbun, Tetra Tech:** Why Won't You Answer My Questions?
22. **Nicole Rosenberg, NMR Group, Inc.:** The Next Generation of Consumer Electronics Programs
23. **Gomathi Sadhasivan, DNV KEMA Energy & Sustainability:** Get out the Watt! : Drawing Parallels with a GOTV Campaign and Influencing Behavior for Results in Energy Efficiency
24. **Ellen Steiner, Energy Market Innovations, Inc.:** Maximizing Return on Research Investment: The Role of Repeatable Sample Frame Development Processes
25. **Adam Thomas, ADM Associates, Inc.:** Market Transformation in Commercial Food Service: Integrating DSM into Procurement Processes
26. **Martha Thompson, Evergreen Economics:** New and Improved! Findings and Implications from a Baseline Energy Appliance, Equipment and Building Characteristics Study
27. **Isaac Wainstein, Energy & Resource Solutions:** Assessing and Optimizing M&V Metering Samples and Durations
28. **Grégoire Wallenborn, Université Libre de Bruxelles:** Demand Response and Appropriation of Smart Grid by Residential Consumers
29. **Cheryl Winch, Cadmus:** Potential and Pitfalls with Quality Installation Verification
30. **Xianming Ye, University of Pretoria:** Measurement and Verification Methodology for Coal Fired Power Plant Energy Efficiency Improvement
