

IEPPEC Vienna

2018

Abstracts Submitted

- 115 Papers
- 7 Panels
- 27 Presentation only

Accepted

- 39 Papers
- 12 Presentations
- Panels:
 - Engaging new participants in evaluation in europe: How can we more effectively connect with energy Utilities and energy efficiency solution providers
 - Do evaluators really know what policymakers want
 - Multiple Benefits
 - Harmonization of Energy Savings Calculations
 - The role of EE in Environmental, Economic and social development
 - Financial Instruments

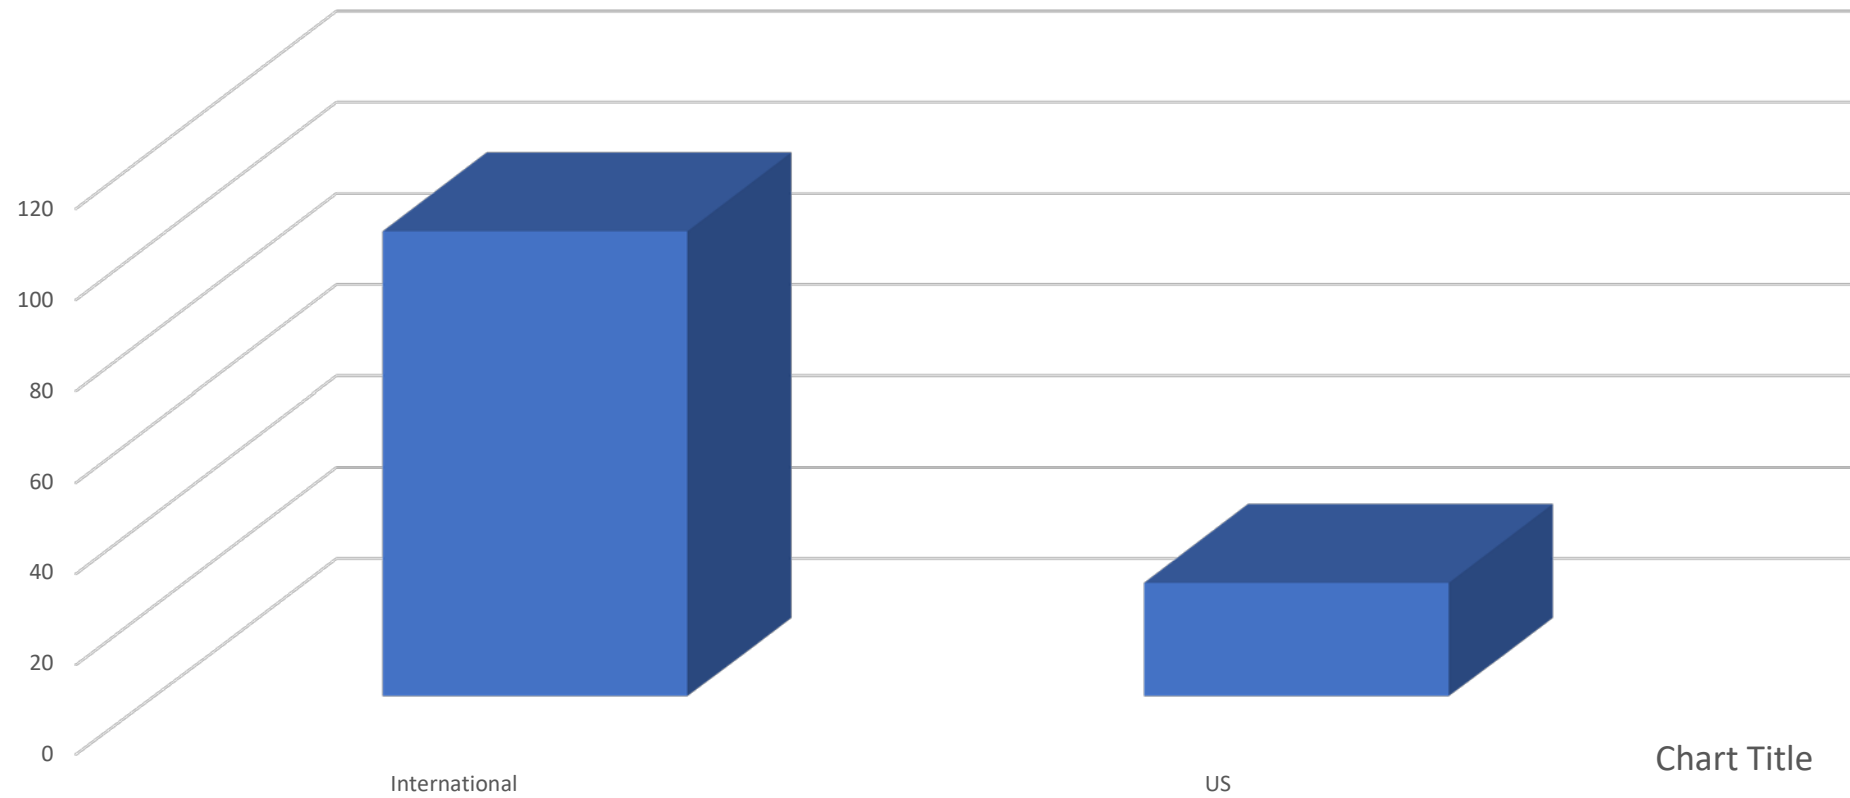

Keynotes

- Monica Weber Fahr: Making a difference when leaders use evaluation evidence
- Bern Vogel: Acting locally thinking globally
- Brenda Boardman: The effects of the energy transition on the distribution of wealth and energy poverty
- Lucas Chancel: How is Europe doing toward social and environmental justice
- Diane Urge Virsatz, Dave Griggs: What next for evaluation research needs.

Field Trips

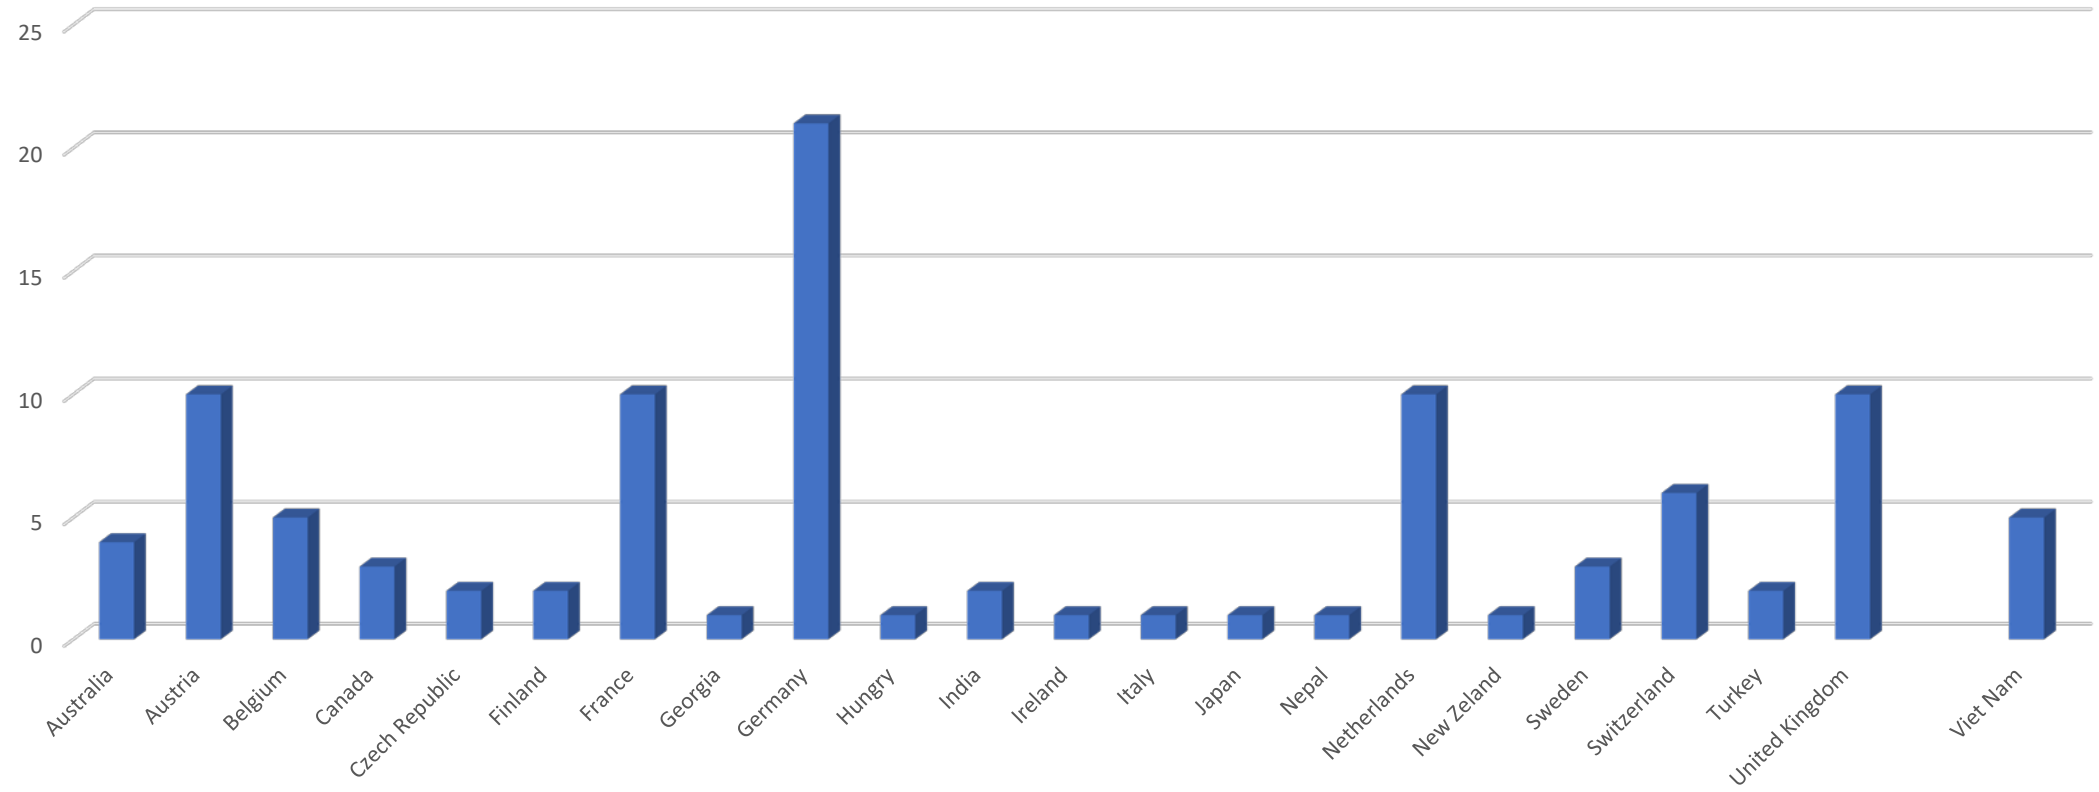

- Aspern—Limited to 40 people
- A new city in which more than 20,000 people will live and almost as many will work by 2018. It features sustainable mobility, architecture neighborhood research and retail facilities—it is a city of the future with an eye to carbon reduction.
- If interested:
 - Bike tours of sustainable buildings
 - Walking tour

US vs. International
